SUMMARY

This newspaper index report highlights editorial coverage trends in seven prominent Pakistani newspapers (*Pakistan Observer*, *The News*, *Business Recorder*, *Daily Times*, *Dawn*, *The Express Tribune*, and *The Nation*) during the month of June 2025. It reflects coverage of a wide range of national and international topics. The report is divided into three sections: national-level editorial coverage, international-level coverage, and a combined overview of topics, with a minimum occurrence threshold of 15 entries per subject to ensure significance. A total of 839 editorial articles were indexed across the seven English-language newspapers (Table 1). The data indicates that 30 national topics and 26 international topics were covered (Figures 1 and 2). However, applying the threshold of a minimum of 15 mentions, the analysis reveals a stronger editorial focus on domestic issues, 13 national topics met this criterion, compared to seven international topics (Figure 3).

At the **national level**, prominent topics included *Economy* (60 entries), *Banking & Finance* (49 entries), *International Relations* (42 entries), *Government* (35 entries), *Defence* (34 entries), and *War, Peace, and Security* (32 entries), *Environment* (27 entries), *Education* (20 entries), *Power and Natural Resources* (18 entries), and *Social Issues* (18 entries), *Women's Rights* (15 entries), *Terrorism and Extremism* (15 entries), and *Law, Legislature and Judiciary* (15 entries), and *others*. **The distribution of these topics demonstrates a narrative transition from war-driven reporting toward economic resilience and global positioning.** On the **international front**, *OIC*, *Islamic World Conflicts*, and *the West vs. Muslim World* (71 entries), *India* (45 entries), *the United States* (39 entries), *World Security* (31 entries), *World Conflicts* (29 entries), *World Security* (31 entries), *World Conflicts* (29 entries), *World International Relations* (23 entries), and *World Policy* (18 entries). This trend of Pakistani newspapers frames international coverage through the lenses of Palestine's humanitarian crisis, Indo-Pak rivalry, U.S.–Pakistan relations under Trump, and global conflicts such as the Russia–Ukraine war.

Overall, the distribution reflects a dual narrative: on one side, urgent humanitarian and geopolitical crises like Palestine, India, and global conflicts dominate; on the other, Pakistan's internal priorities such as economic recovery, governance, and social development which are remain strongly represented.

Newspapers’ and Their Number of Entries

The editorial report of seven major Pakistani newspapers in English language provides trends and patterns publishing in these selected newspapers (**Data attached as Annexure – I**). In June 2025, a total of 839 editorial articles were indexed across seven prominent Pakistani English-language newspapers (Table 1). It shows that Pakistan Observer (17.40%) contributed the highest number of indexed items, closely followed by The News (16.69%) and Business Recorder (15.62%). Together, these three newspapers account for nearly half of the overall coverage, indicating their significant role in disseminating information to the public. The Daily Times (15.02%) and Dawn (13.47%) also hold a notable share, showing that they remain influential sources, though slightly behind the top three. The Express Tribune (12.87%) also makes a meaningful contribution, reflecting its position as an important English daily. Meanwhile, The Nation accounts for the smallest proportion (8.94%), suggesting relatively limited coverage compared to its counterparts.

Table 1: Selected seven newspapers and their number of entries included in the index

Newspaper	Frequency	Percentage
Pakistan Observer	146	17.40
The News	140	16.69
Business Recorder	131	15.62
Daily Times	126	15.02
Dawn	113	13.47
The Express Tribune	108	12.87
The Nation	75	8.94
Total	839	100.00

Newspapers Editorial Coverage at National Level

The indexed newspaper’s editorial entries provide a comprehensive overview of the topics covered in the Pakistani context, highlighting the diversity of issues addressed across seven major newspapers (Data attached as Annexure – I). Overall, it covers 30 various topics at national level in these seven Pakistani newspapers in English language (Figure 1).

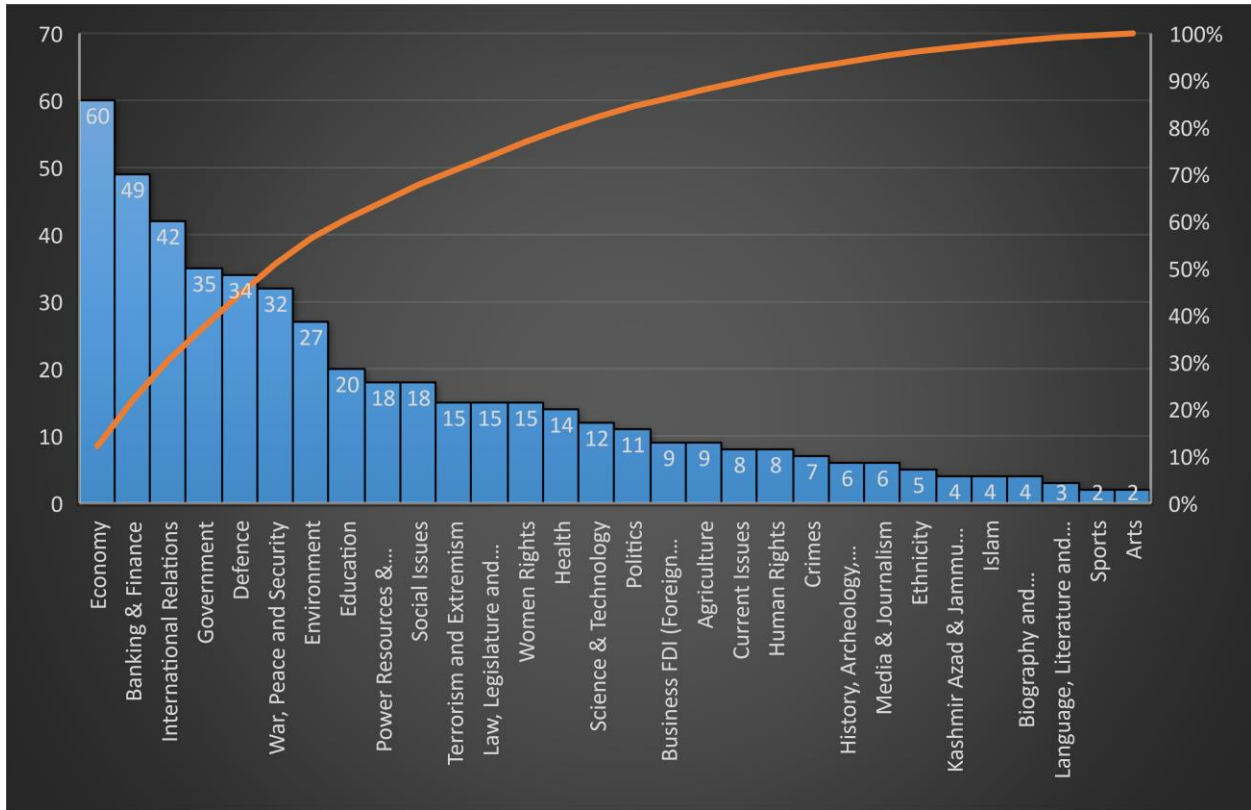

Figure 1: Newspapers coverage on various topics at national level

The analysis of national-level indexed subjects reveals a strong concentration on **economic and financial matters**, with *Economy* (60 entries) and *Banking & Finance* (49 entries) standing out as the most frequently covered themes. This emphasis reflects a shift in national discourse, where economic stability, financial systems, and related challenges have become top priorities. The notable attention to *International Relations* (42 entries) further underscores Pakistan’s growing focus on external engagements, trade partnerships, and diplomatic positioning in the global arena especially with the United States. Together, these three areas highlight a clear narrative transition: whereas the previous year’s coverage was dominated by the tensions and aftermath of war with India, the current focus has tilted toward rebuilding the economy and strengthening international ties. At the same time, subjects such as *Government* (35 entries), *Defence* (34 entries), and *War, Peace, and Security* (32 entries) continue to hold significant presence in the index. This suggests that while the immediate spotlight may have shifted toward economic recovery, the **undercurrent of concern about conflict between India and Pakistan remains intact**, particularly amid regional political uncertainties linked to India’s BJP government and Prime Minister Modi’s policies.

Other areas like *Environment* (27 entries), *Education* (20 entries), *Power and Natural Resources* (18 entries), and *Social Issues* (18 entries) reflect the country's diverse challenges, though they receive comparatively less coverage. Emerging subjects such as *Women's Rights* (15 entries), *Terrorism and Extremism* (15 entries), and *Law, Legislature and Judiciary* (15 entries) indicate that social and political transformation remains part of the broader national discourse. Interestingly, areas such as *Health* (14 entries), *Science & Technology* (12 entries), and *Politics* (11 entries) received relatively modest attention, despite their relevance to Pakistan's long-term development. Similarly, *Agriculture* and *Foreign Direct Investment* (9 entries each) appear underrepresented given their importance to national growth. Cultural, historical, and identity-related topics, including *Language and Literature* (3 entries), *Sports* (2 entries), and *Arts* (2 entries), reflect limited coverage, highlighting the predominance of political and economic issues over softer themes.

Overall, the distribution of topics demonstrates a **narrative transition from war-driven reporting toward economic resilience and global positioning**, while still maintaining a cautious watch on defence and security issues. The interplay of these priorities reflects both Pakistan's pressing domestic needs and its complex geopolitical realities.

Newspaper Editorial Coverage at Global Level

The international-level coverage across the indexed newspapers provides a detailed insight into the global focus and priorities reflected in the media. Overall, there are 26 various topics have been covered at global level in these seven Pakistani newspapers in English language (Figure 2). In June 2025, the editorial focus of seven Pakistani English newspapers strongly centered on international affairs, particularly west verse Islamic world, Indian's policies and conflicts, and the role of United States as a global player.

The coverage of international issues in Pakistani newspapers reveals that OIC, Islamic World Conflicts, and the West vs. Muslim World (71 entries) received the most attention. This prominence is primarily driven by the **ongoing genocide in Palestine**, where Israeli actions against Palestinian people, children, and women have shaken global conscience. The newspapers highlight that, despite the humanitarian catastrophe, much of the world is merely watching rather than intervening. This framing reflects Pakistan's alignment with the Islamic world and its persistent calls for justice and solidarity with Palestine.

India (45 entries) continues to hold the second-highest share, underscoring its centrality in Pakistan's international coverage. Reporting here revolves around Indian politics, policies, and

conflicts, with a particular focus on Kashmir and the BJP government's aggressive stance under Prime Minister Modi. Alongside India, the United States (39 entries) also remains a critical subject. Media narratives during this period capture President Trump's **appreciation of Pakistan's civil-military leadership** while simultaneously **criticizing Modi**, signaling a moment where U.S.–Pakistan relations were framed in comparatively favorable terms. Themes such as World Security (31 entries), World Conflicts (29 entries), world international relations (23 entries), and world policy (18 entries) also occupy significant space. These categories capture not only Pakistan's security anxieties but also global crises like the **Palestinian tragedy**, which disturbs international stability, and the **Russia–Ukraine war**, which has reshaped global conflict dynamics. The persistent coverage suggests that Pakistani newspapers interpret these developments as both international concerns and issues with direct regional repercussions.

Interestingly, World Environment Protection Strategies (14 entries) appear as a distinct area of coverage. Newspapers emphasize the urgency of global climate awareness and the necessity of coordinated strategies. In parallel, China (14 entries) stands out as a growing strategic partner, with media highlighting Pakistan's role in advancing Chinese cooperation, particularly in defense collaboration and infrastructure development. Other topics, such as the World Economy (8 entries), Nuclear Programs and Treaties (7 entries), and World Business Opportunities (5 entries), receive modest attention compared to geopolitical and security themes. Meanwhile, issues such as Human Rights, NGOs and IGOs (5 entries), Education Systems (2 entries), Judicial Systems (2 entries), and World Social Media (2 entries) are touched upon but remain peripheral. Cultural and intellectual subjects such as *Comparative Religions* or *World History and Ancient Civilizations* are minimally covered, underscoring the dominance of political and security narratives.

Overall, Pakistani newspapers frame international coverage through the lenses of **Palestine's humanitarian crisis, Indo-Pak rivalry, U.S.–Pakistan relations under Trump, and global conflicts such as the Russia–Ukraine war**. Alongside these, Pakistan's media underscores its **strategic alignment with China** and its role in climate discourse. The overall pattern reveals a worldview where religion, geopolitics, and security dominate headlines, while social, cultural, and economic issues remain in the background.

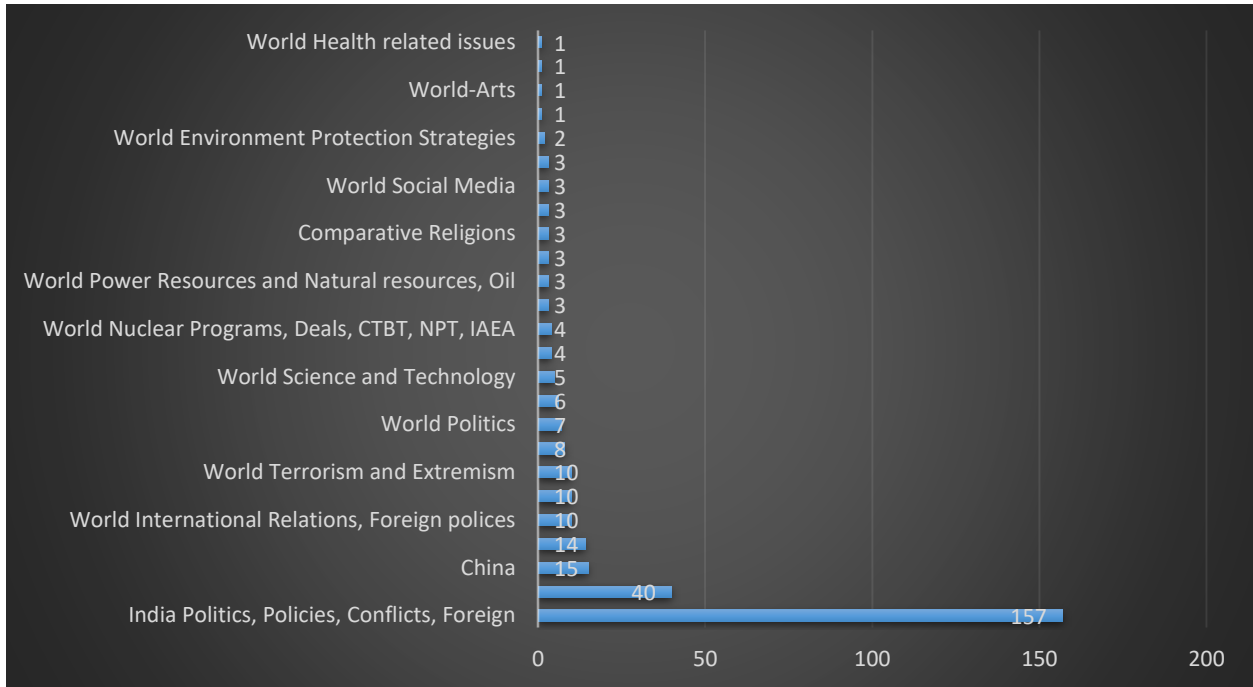

Figure 2: Global coverage areas or topics in Pakistani English newspapers

Major Publishing Trends (combing both National and Global) in Pakistani Newspapers

Based on the application of the 15-occurrence threshold (combining local and international subjects), editorial coverage in seven Pakistani English newspapers during June 2025. Out of the 20 topics meeting the minimum frequency threshold of 15; 13 entries pertain to national contexts and seven from the international context. At the forefront is OIC, Islamic World Conflicts, and the West vs. Muslim World (71 entries), reflecting the deep concern over the **Palestinian genocide**, where Israeli aggression against civilians, women, and children dominates discourse. The coverage emphasizes frustration that the global community is largely watching passively, positioning Pakistan within a wider Islamic solidarity narrative.

National economic concerns also receive significant attention, with Economy (60) and Banking & Finance (49) entries together accounting for a substantial share of the coverage. This indicates a shift in narrative toward financial stability and national recovery, as Pakistan navigates structural challenges and reforms. Closely tied to external affairs, India’s politics, policies, and conflicts (45 entries) remain central, reflecting ongoing anxieties around the BJP government and Kashmir. Meanwhile, International Relations (42) and the United States (39) underscore Pakistan’s engagement with global diplomacy, particularly under Trump’s favorable tone toward Pakistani civil–military leadership and his critique of Modi. Security-driven themes dominate the middle tier: Government (35), Defence (34), War, Peace and Security (32), World Security (31), and

World Conflicts (29). These collectively illustrate how Pakistan’s press situates governance and defense concerns within the wider turbulence of global conflicts such as Palestinian genocide and the Russia–Ukraine war.

Beyond politics and conflict, Environment (4.24%) emerges as a noteworthy theme, where newspapers highlight global climate challenges and Pakistan’s vulnerability, while China (covered separately in earlier analysis) signifies strategic partnership, particularly in defense and economic cooperation. On the social front, Education (3.14%), Power and Natural Resources (2.83%), Social Issues (2.83%), World Politics (2.83%), and rights-based topics such as Terrorism and Extremism, Law and Legislature, and Women’s Rights (each 2.36%) reflect the breadth of issues, though with comparatively modest coverage.

Overall, the distribution reflects a **dual narrative**: on one side, urgent humanitarian and geopolitical crises like Palestine, India, and global conflicts dominate; on the other, Pakistan’s internal priorities such as economic recovery, governance, and social development which are remain strongly represented.

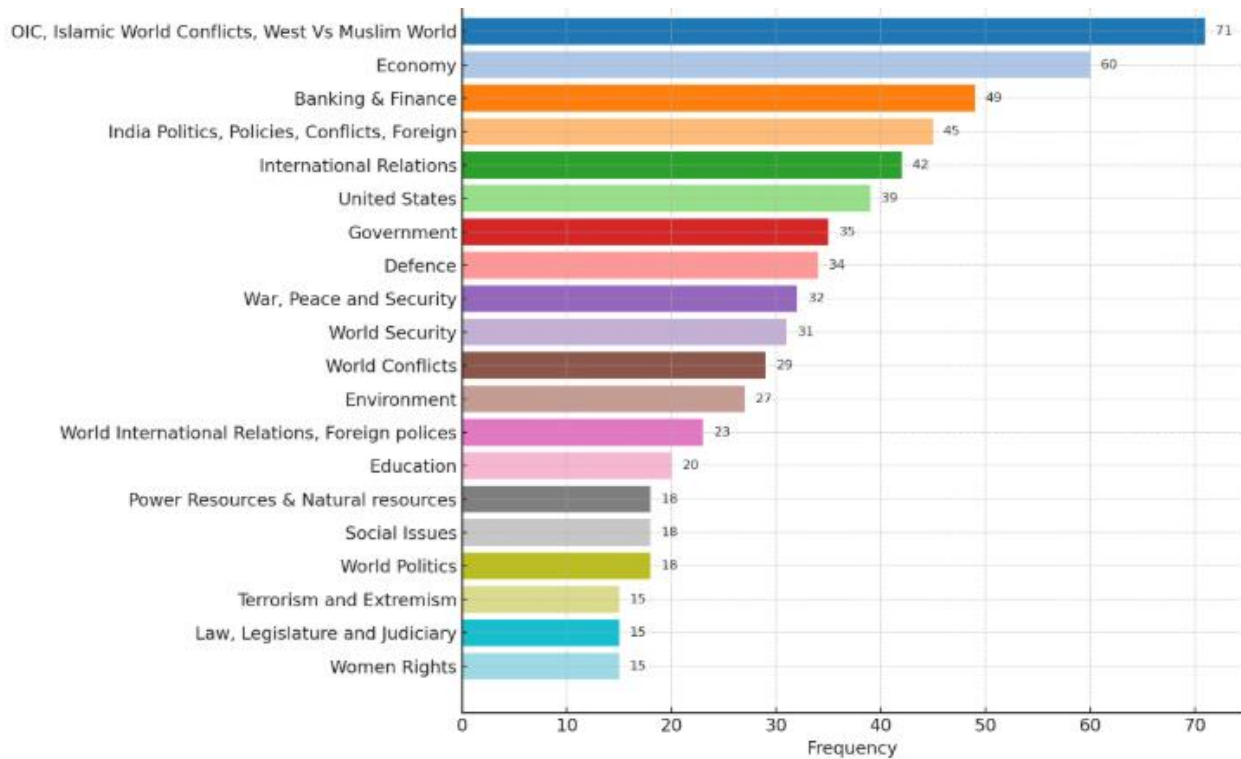

Figure 3: Major publishing trends in Pakistani newspapers (with minimum frequency of 15)
